

SPI exhibition at CPhI Worldwide 2015

We are pleased to report that our participation as an exhibitor of CPhI Worldwide 2015 ended with a great success.

CPhI Worldwide 2015, the world's most comprehensive exhibition of pharmaceutical ingredients and intermediates, was held at IFEMA Feria in Madrid for a period of 3 days from 13 October, 2015.

In an exhibition as great as holding 2,500+ exhibitors and 36,000+ attendees, at booth No. 8b71, we introduced our global operations in pharmaceutical sourcing together with our group companies, Summit Pharmaceuticals Europe and Summit Pharmaceuticals China.

Having a larger space at our booth than in the past years, we were privileged to have numerous meetings with many customers.

We would like to thank all who visited our booth, showed interests and requested for further information about activities of our company group.

As we have been showing our visitors at CPhI that we are very keen to have business with good customers throughout the world, we will continue to energetically participate in the future exhibitions and give our presentation worldwide.

Many customers worldwide visited our booth.

SPI booth: Larger than ever!

We received many positive remarks on our displays.
